

Dr. Mark St. John

Dr. Mark St. John, founder and president of Inverness Research Inc., has a broad background in science and mathematics education at all levels. For over 25 years he has been involved in the evaluation and study of public and private initiatives aimed at improving science and mathematics education. He also advises philanthropies about investments in educational improvement.

Dr. St. John and his colleagues at Inverness Research Inc. have been involved in many evaluations of reform initiatives in education—from the study of large scale initiatives undertaken by the National Science Foundation and the U.S. Department of Education to the evaluation of individual science museum exhibits. They have been involved in studying professional development and teacher leadership networks, curriculum design projects, informal science education efforts, multi-institutional partnerships and centers, and systemic reform initiatives at the state, district, and school levels.
